

**ATTACHMENT A****Remarks**

By this Amendment, the non-consecutive numbering of the original claims objected to by the examiner in the *Claim Objections* section of the Detailed Action has been corrected, so that all claims are now consecutively numbered. It will also be noted that a spelling error in claim 1 has been corrected.

In response to the election requirement contained in the *Election/Restrictions* section the Detailed Action, Applicant hereby elects species H of Figure 16. Claims (as now amended to be consecutively numbered) 1, 3, 5- 7, 13, 15-16, 22, 30-31, and 36-39 are readable on the elected species.

Further and favorable action is solicited.
